

Regulatory Officer - Rail Safety Officer

The Role – Your impact and contribution

ONRSR **Regulatory Officer - Rail Safety Officers** perform a key regulatory role by working closely with rail operators and their rail safety workers to undertake functions of assessing accreditation-related applications, monitoring safety performance, responding to issues and enforcing the law, as required, with the aim of maintaining and improving safety. ONRSR's Rail Safety Officers have responsibility for providing the regulatory oversight necessary to ensure rail operations in Australia are being managed safely.

Your Responsibilities

As an appointed Rail Safety Officer, using your ability to learn new skills you will, in accordance with ONRSR's policies, procedures and business processes you will be responsible for:

- Undertake assigned regulatory tasks including responding to rail safety incidents, site visits, audits, inspections, enquiries, and education meetings
- Participate and support the assessment of applications for accreditation and registration
- Provide high level written reports on regulatory activities undertaken including recommendations to the Manager, Operations/Director Operations
- Assist in the provision of technical advice on rail safety operational matters (principally application of the Rail Safety National Law)
- Support rail safety initiatives by proactive monitoring of regulatory intelligence of Operators
- Perform the function of a duty officer on a roster by taking telephone calls regarding rail incidents and providing limited initial responses.

About You

While experience in the rail industry is highly desirable if you have had previous experience in a regulatory or safety role that will also be viewed favourably.

You must hold and maintain a current driver's licence, have the right to work in Australia and be comfortable to undertake a criminal history check and meet the requirements of a Category 3 Rail Safety Worker in accordance with the National Standard for Health Assessment of Rail Safety Workers.

Key to success in this role is that you:

- Have an understanding of or a motivation to learn quickly about the principles of integrated safety management systems, risk management, auditing and their application to railway operations and the Rail Safety National Law.
- Work effectively and contribute to a safe and positive team environment by participating and collaborating with others.
- Engage with and build professional relationships with operators and other key stakeholders
- Effectively communicate both verbally and in writing including preparing quality reports to reflect a professional regulatory role
- Are curious and comfortable conducting conversations that enable you to recognise problems, develop solutions and implement actions compatible with ONRSR expectations
- Understand how ONRSR values translate to day-to-day performance and behaviour
- Can demonstrate flexibility of approach while working as part of a team
- Work effectively with technical enterprise systems, tools, and applications
- Adopt work practices to meet changing work requirements and situations
- Understand the importance of post activity review for personal and organisational growth and improvement.

About us

ONRSR plays an integral role in keeping Australians safe across the nation's vast and varied rail networks. Headquartered in Adelaide and with offices around the country, ONRSR is an independent regulatory authority that encourages safe rail operations, enforces national compliance with the Rail Safety National Law, and promotes and improves rail safety throughout Australia.

ONRSR actively encourages productive working relationships, a healthy work-life balance, workplace diversity and development of expertise. In addition, the organisation offers a commitment to learning and development, and flexible work options. Further details on the benefits of working at ONRSR can be found at <https://www.onrsr.com.au/about-onrsr/working-at-onrsr>

What we can offer you

- *An organisation where everyone has a shared passion for our vision of safe railways for Australia*
- *The opportunity to be part of an innovative team in an organisation striving to continuously improve*
- *A supportive and dynamic team environment that values the work that you do and promotes a healthy work-life balance*
- *Professional development in accordance with our learning and development plan*

The Application Process

To apply please click here <https://tinyurl.com/mryuhkkc> Your application must include:

- Your resume
- A one-page letter outlining your most current experience relevant to the position description and demonstrating your suitability for the role

As part of the recruitment and selection process, you will be required to undertake a criminal history check if you are one of the preferred candidates. The results may not necessarily preclude appointment to the position.
